

# NEW SUBSIDIARY:

## BURLINGTON ELECTRICAL TESTING

---

### Burlington Electrical Testing

Announced in September 2019, Burlington Electric Testing Company, LLC (BET) was acquired by UtiliCon Solutions, LLC, becoming the newest addition to its family of infrastructure services companies.

A testing and verification company with more than 48 years in the industry, BET is a leader in electrical testing in the Mid-Atlantic region. The business focuses on electrical acceptance and maintenance testing, electrical certification and engineering evaluations of electrical distribution equipment. Their field technicians undergo an extensive five-year electrical testing apprenticeship and are InterNational Electrical Association (NETA) certified.

With offices in New Jersey, New York and Pennsylvania, BET provides electrical field testing and engineering services to utilities and major industrial, commercial and government clients such as airports, colleges and universities, pharmaceutical companies, municipalities and independent power producers, among many others. In addition, BET also conducts on-site Arc Flash Hazard Awareness training, which provides an understanding of the federal laws for safety (OSHA), potential dangers and the best safety practices for when personnel are exposed to electrical hazards.

**Walter Cleary**

President

BET

Walter Cleary, president of BET, has more than 30 years of experience in the electrical engineering industry. He started his career with BET in 1989, when it was under the name of Maryland Electrical Testing Company. In 1995, Walt, along with two coworkers (who are now retired) bought the business and changed the name to Burlington Electrical Testing. Walt has an associate's degree from Penn State University in electrical engineering technology and a bachelor's degree in science and electrical engineering technology (BSEET) from Spring Garden College in Philadelphia, Pennsylvania. Walt reports to Charley Blizard, president of American Electrical Testing Co., LLC, under the sponsorship of UtiliCon Senior Vice President Greg Holman.
